

NEWS FROM YOUR DEDICATED DENTAL TEAM

WINTER 2017

SUSAN MAPLES, DDS

Personalized Dentistry For A Lifetime of Health

Consider the Gift of a Smile Makeover.

With 2018 on the horizon, consider the ultimate gift of self-confidence. Beautifying your loved one's smile can have a life changing impact. If your loved one has dreamed of straight teeth in just six months, replacing a missing tooth with a dental implant, resurfaced worn or stain teeth, replacing tired, worn dentures, or just lightening their natural teeth, we can help! The smile consultation will be our treat and from there we will help you with a solution that fits into your family's budget.

Welcome to the World of Laser Dentistry:

Many of you have heard of laser technology and now it's here. Dr. Susan is busy getting trained to use our new laser for surgical procedures and even for no-drill dentistry. Susan's primary motivation is to help infants with lip-ties and tongue-ties to allow a better breast feeding "latch". Babies who breast feed without assistance, grow a stronger, more powerful tongue that shapes a wider upper palate. Why is that so important? A forward tongue position helps babies develop a more open airway for the rest of their life. The unobstructed airway causes deeper, more restful sleep and as it turns out, that's one of the key factors influencing our overall health and longevity.

Another GREAT 80/20 Party and a Good Time Was Had by ALL!

We all just love honoring a special group of our patients...those who are 80 years and older who have maintained 20 or more teeth. Since we start out with 32 teeth you wouldn't think this would be hard to achieve, but it is! This group of dedicated-to-teeth patients also tend to enjoy better overall health and there's a reason for that. It turns out, when you can chew your food well you have better digestion and tend to eat a higher quality of whole foods. Vice versa is true too. Better overall health helps us keep our teeth longer. Thanks to all of you (and your guests) who could attend. Each year our team loves amusing you with our own unique talents of singing, acting, joke-telling and this year...drumroll please...synchronized swimming!
